

# Improving Patient Safety in Healthcare, One Scan at a Time

Are your scanners capturing hard-to-read barcodes? Can they easily be disinfected? Inefficient scanning leads to nursing workarounds, resulting in errors. In patient safety, there's no room for error.

## Zebra Scanners Provide Patient-Centered Safety Solutions

**Ensure Positive Patient ID and Care** – prevents errors by ensuring the right patient is given the right treatment and dose, the right way and time

**Streamline Admissions Workflows** – Uses driver's license parsing for faster data input saving you time and money

**Improve Inventory Management** – enhance chain of custody and operating room inventory processes

## Discover Healthcare-Focused Features\*

**Built-in lamp illuminates workspace** without using patient room lights

**Disinfectant ready plastics** withstand highly aggressive disinfectants used in today's hospitals

**Night mode** switches between vibrate and beeper feedback with an easy trigger pull to minimize patient disruption

**White illumination LEDs and green aimer** to make scanning barcodes on color-coded specimen trays and biopsy cassettes easier

**Apple certified Bluetooth® products** enable your customer to bring Zebra's advanced scanning technology to these devices

 **DataCapture DNA** includes Zebra scanner software, applications and utilities for a new level of innovation and manageability

\*Available on select models

## Explore The Zebra Healthcare Scanner Portfolio

DS8100-HC Series	DS4308-HC	CS4070-HC	Ideal For:	
<b>Premium — Corded &amp; Cordless</b>	<b>Mid-Range — Corded Only</b>	<b>Mid-Range — Pocketable, Cordless Only</b>	 Hospitals	 Pharmacies
+ Fastest 1D/2D scanning capabilities + Maximum contamination protection using the widest selection of aggressive disinfectants	+ 1D/2D scanning capabilities + Protection against contamination using common disinfectants	+ 1D/2D scanning capabilities + Protection against contamination using common disinfectants	 Ambulatory Surgery Centers	 Laboratories/Phlebotomies

Upgrade to scanners purpose-built to improve patient safety in healthcare.
