

Food Safety, Automated.

The OPI Food Safety Solution.

WIRELESS SENSORS
Passive, wireless sensors can monitor conditions 24/7 in all of your food storage and preparation areas.

HANDHELD DEVICES FROM ZEBRA

Arming staff with devices and applications for accurately monitoring and recording food safety data can save stores time and money. These devices can also make inventory management a breeze, enable employee communication, and improve staff and customer satisfaction. With three device tiers - the Zebra EC50 Economy option, the TC21 Value option, and the TC52 Premium option - we help you choose a device perfectly suited for your specific needs that also fits your budget.

FOOD SAFETY SOFTWARE

OPI has partnered with several software providers to provide innovative applications designed to automate food safety processes. We help you select the application that best fits and facilitates your procedures.

FEATURES:

- At-a-glance Dashboards
- Customizable Checklists
- Real-time Alerts and Reminders
- Audit-ready Reports

BENEFITS:

- Supply-chain Transparency
- Easily Track Quality Incidents
- Withdrawal/Recall Management
- Records are secure, automatically backed-up and available anywhere.

EXPERT FACILITATORS MAKE COMPLIANCE EFFORTLESS

Partnered with OPI, compliance facilitators untangle food safety requirements so you don't have to. They consult on what your specific solution requires and create an actionable audit and training plan to help implement new procedures. Once your solution is in place, they will continue to monitor your food safety system to validate it's efficiency and give you peace of mind that your operation is compliant with all applicable regulations and standards. They can also provide laboratory testing of food, water, and surfaces when required.

OPI SERVICES AND SUPPORT COMPLETE THE SOLUTION

OPI's industry expertise, integration experience and on-going support ensures the long-term success of our solutions. Your OPI Account Manager will be your partner for the entire lifecycle of your food safety solution, from development through deployment and beyond.
