ZEBRA TC52/57

### SMART TROLLEY

Pick multiple orders at once. Wireless Scale and Mobile Printer attached.

### WIRELESS SCALE

Easy measuring of items charged by weight.

## Efficient and Accurate Order Fulfillment

The order picking process may be behind the scenes, but an efficient picking solution is key to any successful BOPIS system. Together with our partner, **StrongPoint**, OPI offers a picking solution that is:

- **4X MORE EFFICIENT**  
Average 240 items picked per hour. (Industry standard 60-65/hr.)
- **99% ACCURATE ORDERS**  
Associates easily find the correct products and swap out-of-stock items with desired substitutes.
- **SCALABLE FOR ANY SIZE STORE**  
Order volume from 1 to >3,000 per day. Quickly scales up temporarily for seasonal demand or sales events.

## SMART PICKUP LOCKERS

Also from OPI and StrongPoint, Click & Collect Grocery Locker Solutions are fully custom, have three temperature zones - frozen, chilled and ambient - and can be in fixed stations, installed in one place, or mobile stations.
